Interpreting the Meaning	Work in small groups to			1 class period

of the Eurozone Crisis: The What, So What, Now What Protocol	interpret and make meaning of what you have learned.			
Policy Responses: Monetary Policy	Watch the video clip about the European Central Bank, students prepare to explain what the ECB is, what it does, and how it can help to regulate an economy.			2 class periods
How Governments Respond to Economic Crises: Fiscal and Supply- Side Policy	Students, as a group, discuss the strengths and weaknesses of the policy options (monetary, fiscal, and supply-side). How do they affect various stakeholders (government, citizens, workers, etc.)?			1 class period
Case Study Investigations: Individual Roles	How Germany Solved its Crisis.			1-2 class periods
Round-Table Discussion: Analysis, Synthesis, and Evaluation of Data and Articles	Microlab Protocol			2 class period

Product Development		Students have been hired as guest reporters for CNN Student News to cover a special edition on the Eurozone crisis. In the video report, educate high school seniors and college students about the economic crisis in your country (causes, effects, and policy responses) so that the leaders of the Net Gen can strategically prevent similar crises in the future. Post the video and important findings online to make the research accessible and show the world what can be learned from this global crisis.	Educate Net Gen: Important Findings from the Eurozone Crisis	3 class period
Peer Review of Videos and Websites: Net Gen Significance	Use the document provided to help students browse through the websites designed by			1 -2 class period

	<p>their peers. Fill in a digital copy of the document to make connections between the crises in different countries as they review the sites. Look over all of the groups' websites by the end of class.</p>
